

Somfy myLink™  
PRODUCT SPECIFICATIONS

# Control motorised applications from home or away, with one plug, no wires.

PRODUCT FUNCTIONALITIES

No wires involved, just a plug

Secure connection

### Control

Controls blinds, curtain, awnings as well as RTS enabled lighting devices.

### Plug & Go

Plugs directly into a wall socket and follows on-screen set-up wizard. Easy!

### Timed Event

Schedule your scenarios to run on a weekly plan.

### Remote Access

Maximise the many benefits such as energy saving and privacy even when you're away from home.

# WIRING DETAIL : SOMFY myLINK™ USING RTS TECHNOLOGY

## SOMFY myLINK™ - USING RTS TECHNOLOGY

myLink™ can be added to any existing RTS installation only if:

- All RTS motor limits, including "MY" if desired, are set.
- There must be a pre-programmed RTS controller (handheld, in-wall or table top) that controls the motors, and will also be controlled by the myLink™.
- Recommended that the channel configuration of the transmitter matches what you want to see on myLink™ – ex. On a Telis 4 RTS, channels 1-4 individually control motors, and channel 5 is a group channel that controls all 4 motors together.

## Somfy myLink PRODUCT SPECIFICATIONS

### OPERATING PRINCIPLE

**RTS Communications**  
between Somfy myLink and the home's devices.

**WIFI Communications**  
between the router and the Somfy myLink.

**Remote Control (3G/4G)**  
Commands sent from the smartphone/tablet via the 3G/4G Internet network.

**Control from Home**  
Commands sent from the smartphone/tablet via the home's WiFi.

### COMPATIBLE END PRODUCTS
