DISCOVER OUR SLIDETEC FRAMELESS GLASS SLIDING DOORS

Slidetec Frameless Glass Sliding Doors and Fixed Panels are designed and manufactured in Australia and New Zealand to withstand our unique coastal conditions.

Most specified to transform a Louvretec Opening Roof system into an Outdoor Room, they are also suitable for closing off decks, patios, and other outdoor spaces.

Slidetec Frameless Glass Sliding Doors are available in 10mm or 12mm toughened glass and come in a variety of sliding configurations.

Additionally, the Slidetec range also offers Fixed Glass Panels - including Overhead Panels as well as full height Fixed Panels.

Start creating your outdoor living experience today.

SLIDETEC FRAMELESS GLASS SLIDING DOORS

ENJOY YOUR OUTDOOR SPACE WITHOUT COMPROMISING YOUR VIEW

Slidetec Frameless Glass Sliding Doors create a sliding wall that enhances deck and patio areas and provide protection from the elements without compromising your outlook.

Slidetec Frameless Glass Sliding Doors are floor mounted, with an integrated floor rail that ensures your living space flows beautifully.

Slide open to make the most of a cool breeze on a hot summers day, or slide them closed and enjoy outdoor living spaces when the weather turns.

With Slidetec's follower function included in each glass door, you'll enjoy effortless sliding every time.

A Foot-Lock allows you to lock off the doors at your desired opening.

Slidetec Frameless Glass Sliding Doors have been designed to meet the demands of our climatic conditions with 10mm and 12mm options available in toughened glass.

Configurations

Configurations include Left-Hand Sliding, Right-Hand Sliding and Meet in the Middle options.

How Many Panels On a Track?

When it comes to specifying how many panels of glass your Outdoor Room requires choose from these options:

- Slidetec 3 Track
(allowing up to 6 panels of glass)
- Slidetec 4 Track
(allowing up to 8 panels of glass)
- Slidetec 5 Track
(allowing for up to 10 panels of glass)

Glass Panel Widths

- Minimum panel width: 500mm
- Maximum panel width: 2400mm

SLIDETEC FRAMELESS GLASS SLIDING DOORS

Maximise your outdoor space with Slidetec Frameless Glass Sliding Doors and an Opening Roof. The ultimate way to enjoy fresh air, light, and style.

FIXED GLAZED PANELS

FOR ADDITIONAL HEIGHT AND EVEN MORE LIGHT

The Slidetec range also includes Fixed Glazed panels.

Fixed Panels provide a glazed option to infill the area above Slidetec Frameless Glass Sliding Doors.

Incorporating a Fixed Glazed Panel with a Slidetec Frameless Glass Sliding Door in a high wind zone, reduces the height of the Glass Sliding Doors, making them compatible with high wind zone requirements.

Fixed Glazed Panels are available in a Rectangular or Raking shape.

Slidetec Fixed Glazed Panels can also be used to provide shelter as a Full Height Glazed Panel when sliding access is not required – a great way to let in more light while providing excellent weather protection from wind and rain.

FIXED GLAZED PANELS

Infill the area above a Slidetec Frameless Glass Sliding Door or Louvretec Outdoor Blind with a Fixed Glazed Panel.
