

CELLULAR BLIND SYSTEMS

| | |
|-----------------------------|------|
| CELLULAR SYSTEM | 3.1 |
| CORD LOOP CELLULAR SYSTEM | 3.2 |
| LIFT N LOCK CELLULAR SYSTEM | 3.2a |
| MOTORISED CELLULAR SYSTEM | 3.3 |

Vertilux Cellular Systems are infinitely adaptable, both in screen density and shape, meeting unique design requirements including arched, circular, triangular and asymmetric applications. Additionally, their sound absorption properties assist in quietening the home environment and keeping exterior noise out.

Vertilux Cellular Blind fabrics are available in 10mm and 20mm cells with a unique honeycomb shape combining style, versatility and functionality offering an innovative and energy efficient window covering solution.

Our Vertilux Cordloop Cellular System is operated by a single continuous cord only. Our Day Nighter system allows a combination of fabrics to suit almost any light control or privacy requirement. Each application can be lifted from either the bottom or the top so as to admit or block light whilst maintaining high levels of privacy.

Available in a wide range of colours and textures, including transparent, translucent and room darkening options and include colour coordinated extruded aluminium headrails, base rails and associated componentry such as control cords.

Additionally, the Vertilux Motorised Cellular System uses the latest in technology options, making their operation simple, reliable and durable. Their adaptability and the ability to motorise these blinds make them particularly suited to skylight and hard to reach applications.

TECHNICAL DATA

| AVAILABLE SYSTEMS | MINIMUM WIDTH | MAXIMUM WIDTH | MINIMUM DROP | MAXIMUM DROP |
|-------------------------|---------------|---------------|--------------|--------------|
| CELLULAR SYSTEM 3.1 | 200mm | 3000 - 4400m | 400mm | 4000mm |
| CORDLOOP SYSTEM 3.2 | 350mm | 3000 - 4400m | 400mm | 4000mm |
| LIFT N LOCK SYSTEM 3.2a | 460mm | 3040m | 400mm | 2130mm |
| MOTORISED SYSTEM 3.3 | 700mm | 3000 - 4400m | 400mm | 4000mm |
